HEADINGS	0

Audit evidence

SCORECARD READY

HTTP response — ATTENTION

HTTP 530 · The page was requested directly at this address and returned this response. Final URL after any redirects: https://furnaceservicechampaign.com/

Indexing directives — OBSERVED

None captured · No indexing restriction was found. This does not confirm the page is actually indexed by Google, only that nothing is blocking it.

Canonical URL — ATTENTION

Not captured · A canonical tag tells search engines which URL is the authoritative version of a page. Google treats it as a strong hint, not a guarantee, and can still choose a different URL.

Search metadata — ATTENTION

No title · no description · This confirms a title and description exist in the code. Google often rewrites these when generating the actual search result snippet.

Contact routes — ATTENTION

0 phone links · 0 email links · 0 forms · No clickable phone link, email link, or contact form was found on this page. A visitor arriving here has no direct way to reach this business.

Mobile performance — NOT MEASURED

Not measured · Google PageSpeed is not connected for this report, so mobile performance is intentionally left unmeasured rather than estimated.

SOURCE SCORECARD

Separate signals. Peer benchmark pending.

Website structure

NOT MEASURED

The page did not return a successful public HTML response.

SEO health

NOT MEASURED

The page did not return a successful public HTML response.

Local relevance

NOT MEASURED

The page did not return a successful public HTML response.

Conversion evidence

NOT MEASURED

The page did not return a successful public HTML response.

Trust evidence

NOT MEASURED

The page did not return a successful public HTML response.

Technical foundations

NOT MEASURED

The page did not return a successful public HTML response.

Overall score: not measured · commercial valuation: not measured

No percentile is issued until a comparable peer cohort is loaded. Business valuation cannot be inferred from an unsuccessful page response.

- Comparable peer URLs
- Verified Search Console or analytics data
- Revenue, lead, or valuation inputs

WHAT THE BUSINESS OWNER SEES NEXT

Evidence first. Clear actions second.

01 Fix the HTTP 530 response first — a page returning an error cannot be indexed or found by potential customers searching online.

02 Add a clickable phone number, email link, or contact form to this page. None was found in the captured HTML, which means a visitor arriving here has no direct way to reach the business.

03 Add one clear, primary heading describing the page’s main service or topic — this helps both visitors and search engines quickly understand what the page offers.

04 Add a mobile viewport tag and test the page on an actual phone-sized screen — most visitors to a local service business site are on mobile.
